INDEX OF SUBJECTS FOR VOLUME 49

Abacavir
  drug interactions, 958
Abattoir workers, 371
Abdominal infections, 827
Acetylesterase activity
  respiratory bovine coronaviruses and, 1119
Acinetobacter spp.
  A. baumannii, serum resistance, 1047
  phenotypic identification, 773
  tetracycline resistance in, 929
Actinobacillus actinomycetemcomitans
  enumeration in subgingival plaque, 861
  epithelial cell death and, 739
Actinomyces spp.
  trypsin-like activity in periodontitis, 621
Adherence
  bacterial, to rifampin-impregnated shunts, 441
  B. cepacia to cystic fibrosis epithelia, 875
  C. albicans to epithelial cells, 291
  E. coli to cell culture and tissue explants, 327
  enteropathogenic *E. coli* to HEp-2 cells, 823
  S. enterica serotype Enteritidis to ileal explants, 691
  S. enterica serotype Enteritidis to polystyrene, 481
  S. pneumoniae, virulence determinants, 1057
Aeromonas spp.
  A. media, enterotoxicity, 685
  gastro-enteritis-associated, 121
  novel enterotoxin, 121
Agglutination
  latex, monoclonal antibody-based, 1075
  ultrasound-enhanced, 853
AIDS patients
  C. parvum infection in, 207
  drug interactions in, 957
  infections in (review), 947
  invasive pneumococcal disease in, 952
  microsporidiosis and, 948
  non-typhoidal salmonellae in, 955
  opportunist infections in, 948, 985
Aminoglycosides
  resistance of *E. coli*, 409
Amphotericin B
  resistance of *A. terreus*, 601
Amprenavir
  drug interactions, 961
Anaerobes
  in abdominal infections, 827
  detection of *B. pilosicoli* in blood culture systems, 1031
  identification of *Peptostreptococcus* spp., 747
  inhibition of chemotaxis, and bacterial vaginosis, 1023
  ultrastructure of *H. pylori* coccoid form, 513
Andes hantavirus, ELISA for, 149
Animal models
  M. leprae, 301
  see also Mouse model, Rat model
Ankylosing spondylitis, 305
Anthrax, 1129
Antibiotic resistance
  aminoglycosides, and *E. coli*, 409
  amphotericin B, and *A. terreus*, 601
  azole, and *C. glabrata*, 977
  co-transfer of plasmids in MRSA, 1103
  discrimination between MSSA and MRSA, 295
  erythromycin, and *S. pneumoniae*, 361
  fluoroquinolones, and enteric fever, 21
  fusidic acid resistance in MRSA, 419
  gene cassettes and class 1 integrons in *E. coli*, 1097
  genotyping multiresistant *M. tuberculosis*, 651
  methicillin, and *S. aureus*, 187, 295, 419, 1103, 1109
  multiresistance, in the tropics, 18, 19, 20
  multiresistant *B. pseudomallei*, 11
  multiresistant *E. coli*, 18
  multiresistant *H. influenzae*, 19
  multiresistant *M. tuberculosis*, 18
  multiresistant *N. gonorrhoeae*, 19
  multiresistant *N. meningitidis*, 19
  multiresistant salmonellae, 20
  multiresistant *S. aureus*, 187, 1109
  multiresistant *S. dysenteriae*, 19
  multiresistant *S. pneumoniae*, 19
  multiresistant *Y. pestis*, 8
  mupirocin, and *S. aureus*, 1103
  phenicol, evolution in *S.* Typhimurium, 103
  primary and combined in *H. pylori*, 415
  reduction of antibiotic use, 111
  rifampicin, and *M. tuberculosis*, 271
  source, 111
  spread, 111
  tetracycline, in *Acinetobacter* spp., 929
  in the tropics, 8, 11, 18, 20
  vancomycin, and *E. faecium*, 793
Antibiotics and other antimicrobial substances
  against *C. parvum*, 207
  bactericidal activity of gemifloxacin, 841
  fluconazole and ibuprofen against *Candida* spp., 831
  methicillin and *S. aureus*, 295
  pharmacokinetic/pharmacodynamic considerations, 943
  polymyxin B, interactions with LPS of *Proteus* spp., 127
  prophylactic use, 955
  rationalising dosage regimens, 943
  reducing use in animals and man, 111
  S. pneumoniae and HIV infection, 954
  susceptibility of *Acinetobacter* spp., 773
  susceptibility of *C. urealyticum*, 759
  susceptibility of *S. enterica*, 956
  treatment of human ehrlichioses, 17
  treatment of melioidosis, 11
  treatment of *M. leprae* infection, 301
  treatment of plague, 8
  treatment of rhinoscleroma, 395
Antibodies
  against *B. afzelii*, 917
  against *B. burgdorferi*, 911, 917
  against *B. pertussis*, 157
  against *C. parvum*, 207
  against *C. trachomatis*, 457
  against *H. pylori*, 643
  against *M. leprae*, 301
  against *S. pyogenes*, 849
  against verocytotoxin-producing *E. coli*, 97
  antibody-coated diagnostic micro-particles, 853
  response in paracoccidioidomycosis, 37
Antifungal activity
  fluconazole and ibuprofen against *Candida* spp., 831
Antigens
  B. afzelii, 917
  B. burgdorferi, 911
  B. pertussis, 157
  enteropathogenic *E. coli*, 823
  hantaviruses, 588
  HLA and autoimmunity, 305
  H. pylori, 643
  LEE-encoded proteins, 97
  major outer-membrane protein polyantigens of *C. trachomatis*, 457
  protective, of *B. abortus*, 165
  S. pneumoniae, 1057
  superantigens of *S. pyogenes*, 849
  surface, of oral bacteria, 245
  ultrasound-enhanced agglutination, 853
Antiretroviral agents
  drug interactions in AIDS, 957
  see also specific agents
Antiviral activity
  human milk factors, 719
Antiviral agents
  hantaviruses and, 593
Apoptosis

A. actinomycetemcomitans-induced, 739
gastric epithelial, and *H. pylori*, 521
rabies virus-induced, 1043
Aspergillosis, 375, 601
Aspergillus spp.
A. fumigatus, genetic multilocus study, 375
A. fumigatus, in-situ detection, 285
A. terreus, amphotericin B resistance, 601
Autoimmunity
HLA antigens and, 305
Autolysin
S. pneumoniae, 1062
Azithromycin
in *C. parvum* infection, 207
Azole
resistance, and *C. glabrata*, 977

Bacillus anthracis
disease in South India, 1129
BACTEC™ system, 787
Bacteraemia
B. pilosicoli, 1031
in HIV infection, 952
S. enterica, 955
S. epidermidis, 367
S. oralis, 367
S. pneumoniae, 361, 952, 1060
Bactericidal activity
effect of RSV on THP-1 cells, 227
of gemifloxacin, 841
serum, and *A. baumannii*, 1047
shock waves, 709
Bacteriophages *see* Phages
Bacteroides spp.
B. fragilis, genetic relatedness of strains, 279
B. fragilis group, in abdominal infections, 827
carbapenemase gene in, 427
Biofilms
effects of probiotics on yeasts, 713
Blastocystis hominis
cryptic genetic variation, 489
Blood
detection of *N. meningitidis*, 451
Blood culture systems
detection of *Brachyspira (Serpulina) pilosicoli*, 1031
rapid detection of *B. pseudomallei* septicaemia, 1075
Body fluid infection
diagnosis with the BACTEC system, 787
Bone marrow transplant patients, 367
BOOK REVIEWS
Essentials of Microbiology for Dental Students (J. Bagg *et al.*), 848
Marburg and Ebola Viruses: Current Topics in Microbiology and Immunology 235 (edited by H-D. Klenk), 203
Medical Microbiology Illustrated (S.G. Gillespie), 769
Methods in Molecular Medicine: Antiviral Methods and Protocols (edited by D. Kinchington and R.F. Schinazi), 204
Methods in Molecular Medicine: DNA Vaccines – Methods and Protocols (edited by D.B. Lowrie and R.G. Whalen), 769
The Complete Guide to Anti-Infectives (BS 1022) (G. Halls), 204
Topley & Wilson's Microbiology and Microbial Infections, 9th edition, volume 3: Bacterial Infections (edited by B.W.J. Mahy and L. Collier), 203
Bordetella pertussis
nasal vaccine, 157
whole-cell antigen, 157
Borrelia spp.
B. afzelii, borreliacidal activity of Lyme disease sera, 917
B. burgdorferi, false-negative serology in neuroborreliosis, 911
B. burgdorferi, antimicrobial activity of nicotine, 675
B. burgdorferi, borreliacidal activity of sera, 917
B. burgdorferi, characterisation of strains, 47
B. burgdorferi, skin disorders of Lyme borreliosis, 47
Brachyspira (Serpulina) pilosicoli
detection in blood culture systems, 1031
Breast milk
contaminated with MRSA, 1109
Brucella abortus
protective antigen, 165
Bubonic plague, 8
Burkholderia spp.
B. cepacia, adherence to cystic fibrosis epithelia, 875
B. cepacia, cable-piliated, 875
B. pseudomallei, analysis of genome, 993
B. pseudomallei, antibiotic susceptibility, 11
B. pseudomallei, clinical disease and diagnosis, 10
B. pseudomallei, comparison with *B. thailandensis*, 993
B. pseudomallei, distribution and ecology, 9
B. pseudomallei, epidemiology and pathogenesis, 10
B. pseudomallei, melioidosis, 9
B. pseudomallei, monoclonal antibody, 1075
B. pseudomallei, rapid detection of septicaemia, 1075
Butyrate production
by *Peptostreptococcus* spp., 747

Campylobacter spp.
C. jejuni, cytolethal distending toxin, 473
food poisoning and, 677
Candida spp.
antifungal activity of ibuprofen and fluconazole, 831
C. albicans, adhesion to epithelial cells, 291
C. albicans, chronic hyperplastic candidosis, 199
C. albicans, competition for glucose, 969
C. albicans, oral, in HIV infection, 985
C. albicans, phenotypic characterisation, 199
C. glabrata, azole resistance and petite mutation, 977
C. glabrata, molecular genotyping, 575
effect of probiotics on biofilms, 713
molecular genotyping, 575
Candidosis, chronic hyperplastic, 199
Capsule
of *K. planticola*, 115
of *K. pneumoniae*, 1003
Carbapenemase gene
in *Bacteroides* spp., 427
Cell culture
adherence of *E. coli*, 327, 823
co-infection of rotavirus and *Yersinia* spp., 897
cytotoxicity of *A. actinomycetemcomitans*, 739
effect of weak bases on Mayaro virus replication, 313
hantaviruses, 588
induction of HGF by *P. gingivalis* fimbriae, 319
influence of surface antigens of oral bacteria, 245
internalisation of *S. pyogenes*, 499
invasiveness of *Salmonella* serotypes, 503
RSV and bactericidal activity of THP-1 cells, 227
ultrastructural study of *M. avium* infection, 139
V. parahaemolyticus-induced chloride secretion, 801
Chemotaxis
inhibition, and bacterial vaginosis, 1023
Children
clonal spread of *H. influenzae* type b, 845
cryptosporidiosis in, 207
genotypic characterisation of VanA *E. faecium*, 793
molecular analysis of *S. sonnei*, 355
unidentified serogroups of enteropathogenic *E. coli*, 823
Chlamydia
C. pneumoniae infection during an influenza epidemic, 391
C. pneumoniae in multiple sclerosis, 1
C. trachomatis antibodies, 457
C. trachomatis major outer-membrane protein polyantigens, 457
Chloramphenicol resistance
Salmonella serotype Typhimurium, 103
Chloride secretion
V. parahaemolyticus-induced, 801
Cholera, 12, 1085
Cholera toxin β-subunit, 535
Choline-binding protein
of *S. pneumoniae*, 1059
Ciprofloxacin
resistance of *H. pylori*, 415
Clarithromycin
resistance of *H. pylori*, 415
Clofazimine
M. leprae infection and, 301
Clone, concept of, 397
Clostridia
in abdominal infections, 827
C. butyricum interaction with *H. pylori*, 635

C. piliforme, cytokines in Tyzzer's disease, 171, 557
Coagulase
Y. pestis, 261
Complement
inhibition by *S. pyogenes*, 849
in killing of borreliae, 917
Copenhagen recommendation, 943
Coronaviruses
bovine respiratory, 1119
porcine respiratory, 613
Corynebacterium spp.
C. urealyticum, characterisation, 759
trypsin-like activity in periodontitis, 621
Co-trimoxazole
prophylactic, 954
Counter-immuno-electrophoresis
antibody response in paracoccidioidomycosis, 37
Cryptococcus neoformans
extracellular proteinase activity, 733
Cryptosporidiosis, 207
Cryptosporidium spp.
C. parvum, cryptic genetic variation, 489
C. parvum, treatment of infection, 207
detection and speciation, 779
CSF
detection of *N. meningitidis*, 451
immune response to *B. burgdorferi*, 911
shunt catheters, bacterial adhesion, 441
Culture media
blood culture systems for *B. pilosicoli*, 1031
diagnosis of body fluid infection, 787
for haemolysin-deficient variants of streptococci, 811
isolation of β-haemolytic streptococci from throat swabs, 941
Cystic fibrosis lung explants, 875
Cytokines
effects of interaction of verotoxin and LPS, 905
in seminal plasma, 697
S. pneumoniae and, 1063
see also specific cytokines
Cytolethal distending toxin
C. jejuni, 473
Helicobacter spp., 525
Cytomegalovirus
antiviral activity of human milk factors, 719
Cytotoxicity
of *A. actinomycetemcomitans*, 739

Dapsone
M. leprae infection and, 301
Delavirdine
drug interactions, 961
Dental plaque
detection and identification of *S. sobrinus*, 1069
enumeration of periodontopathogens in, 861
H. pylori in, 349
Dermatophyte fungi
identification by PCR, 493
Diabetes mellitus, 291
Diarrhoea
clonal groups of enteropathogenic *E. coli*, 177
unidentified serogroups of enteropathogenic *E. coli*, 823
Didanosine
drug interactions, 958
Dientamoeba fragilis
cryptic genetic variation, 489
Diverticulitis, 827
DNA
analysis of genome of *B. pseudomallei*, 993
discrimination among group B *P. multocida*, 81
DNA polymerase I of *T. pallidum*, 657
in-situ detection of *A. fumigatus*, 285
internal transcribed spacer 1 sequencing, 29
plasmid profiling of enteropathogenic *E. coli*, 823
RAPD analysis of oral streptococci, 63
sequence analysis of bacterial flora in gastric biopsies, 817
typing of *Malassezia* spp., 29
Dobrova virus infection, 590

Economic factors
diagnosis of rifampicin resistance in tuberculosis, 271
EDTA
effect on serum resistance of *A. baumannii*, 1047
Efavirenz
drug interactions, 961
Ehrlichia spp.
granulocytic ehrlichioses, 17
human ehrlichioses, 15
monocytic ehrlichioses, 15
Electron microscopy
activity of ibuprofen against *Candida* spp., 831
bacterial adhesion to rifampin-impregnated catheters, 441
co-infection of rotavirus and *Yersinia* spp., 897
effects of probiotics on yeasts in biofilms, 713
scanning, 441, 513, 713
transmission, 139, 831, 897
ultrastructural study of *M. avium* infection, 139
ultrastructure of *H. pylori* coccoid form, 513
see also Immuno-electron microscopy
ELISA
for Andes hantavirus, 149
antibody response in paracoccidioidomycosis, 37
cytokines in seminal plasma, 697
immunocapture, detection of influenza A and B, 1037
recombinant, *C. trachomatis*-specific, 457
Encephalopathy, 607
Endotoxins
E. coli, and monoclonal antibodies, 253
Entamoeba histolytica
cryptic genetic variation, 489
Enteric fever
multi-drug-resistant, 20
Enterococcus faecium
genotypic characterisation, 793
vancomycin-resistant, 793
Enterotoxins
of *A. media*, 685
gastro-enteritis-associated *Aeromonas* strain, 121
Epidemiology
antibiotic resistance in tropics, 18
cholera, 13
hantaviruses, 588
melioidosis, 10
molecular analysis of *S. sonnei*, 355
molecular typing of *M. avium*, 1091
molecular, of *V. cholerae*, 1085
plague, 7
Spanish meningococcal epidemic strains, 1079
S. pneumoniae bacteraemia, 361
S. pneumoniae and HIV infection, 952
Epidermophyton floccosum
identification by PCR, 493
Erythromycin resistance
of *H. pylori*, 415
of *S. pneumoniae*, 361
Escherichia coli
in abdominal infections, 827
adherence, role of fimbriae and flagella, 327
aminoglycoside resistance, 409
antibody response to *LEE*-encoded proteins, 97
bactericidal activity of gemifloxacin, 841
class 1 integrons, 1097
clonal groups and childhood diarrhoea, 177
co-infection with rotavirus, 897
drug resistance gene cassettes, 1097
enterohaemorrhagic (EHEC), 565, 583
enteroinvasive (EIEC), 583
enteropathogenic (EPEC), 177, 823
food poisoning and, 677
LPS and verotoxin action in mice, 905
monoclonal antibodies, protective features, 253
multiple *stx* genes in, 383
multiresistant faecal flora, 18
oligopeptide-binding proteins (OppA), 409
phage genotyping, 565
plasmids, 823
relationships with shigellae, 583
Shiga toxin-producing (STEC), 383, 565, 583, 765
surveillance in India, 765

translocation in sepsis, 431
unidentified serogroups and infantile diarrhoea, 823
verocytotoxin-producing (VTEC), 97

Faeces
multiresistance of flora, 18
Fertility
seminal cytokines and, 697
Fibrinolysin
Y. pestis, 261
Fibronectin
binding protein of *L. monocytogenes*, 887
Fimbriae
of *E. coli*, 327
of *P. gingivalis*, 319
of *S. enterica* serotype Enteritidis, 481, 691
Flagella
of *E. coli*, 327
of *S. enterica* serotype Enteritidis, 691
Florfenicol resistance
Salmonella serotype Typhimurium, 103
Fluconazole
activity against *Candida* spp., 831
Fluoroquinolones
bactericidal activity of gemifloxacin, 841
pharmacokinetic/pharmacodynamic considerations, 943
resistance, and enteric fever, 21
Food
microbiological safety, 677
Food poisoning
Food Standards Agency and, 677
Fusidic acid
resistant *S. aureus*, 419
Fusobacterium spp.
in abdominal infections, 827

Gastric biopsies, eubacteria in, 817
Gastric emptying
in *H. heilmannii* infection, 627
Gastric juice
culture of *H. pylori*, 343
Gastritis, 817
Gastro-enteritis
novel enterotoxin from *Aeromonas* strain, 121
Genes
analysis of genome of *B. pseudomallei*, 993
antibody response to *LEE*-encoded proteins, 97
c alpha protein of *S. agalactiae*, 193
carbapenemase, in *Bacteroides* spp., 427
characterisation of *C. urealyticum*, 759
cryptic genetic variation in parasitic protozoa, 489
cytolethal distending toxin of *C. jejuni*, 473
in dissemination of antibiotic resistance, 18
for DNA polymerase I of *T. pallidum*, 657
drug resistance cassettes in *E. coli*, 1097
encoding glyoxalases from *N. meningitidis*, 669
genetic relatedness in *B. fragilis* strains, 279
genome of *M. leprae*, 301
genotyping of *E. faecium*, 793
hantaviruses, 587
L. monocytogenes fibronectin-binding protein, 887
L. monocytogenes, iron modulation of *actA*, 681
molecular genotyping of *Candida* spp., 575
molecular grouping of *L. monocytogenes*, 73
multilocus enzyme electrophoresis analysis of *A. fumigatus*, 375
multiple *stx* genes in *E. coli*, 383
neu oncogene overexpression, 89
phage genotyping of enterohaemorrhagic *E. coli*, 565
phenicol resistance in *S.* Typhimurium, 103
rabies virus, apoptosis and Nedd-2, 1043
relationships of shigellae and *E. coli*, 583
typing of hepatitis C virus, 89
typing multiresistant *M. tuberculosis*, 651
virulence of *V. cholerae*, 13
Giardia duodenalis (intestinalis)
cryptic genetic variation, 489
influence of intestinal bacteria on pathogenicity, 209
Giardiasis, 209

D-Glucan
as indicator of *P. carinii* pneumonia, 393
Glucose
competition for, and *C. albicans*, 969
Glyoxalases
from *N. meningitidis*, 669
Granulocytic ehrlichioses, 17
Gut explants
adherence of *E. coli*, 327

HAART (highly active antiretroviral therapy), 947
Haemagglutinin-esterase
respiratory bovine coronaviruses and, 1119
Haemagglutinins
K. planticola, 115
Haemolytic activity
haemolysin-deficient variants of streptococci, 811
S. intermedius, 55
'*S. milleri* group', 55
V. parahaemolyticus, 801
Haemolytic-uraemic syndrome, 583
Haemophilus influenzae
antibiotic resistance in tropics, 19
type b, clonal spread, 845
Haemorrhagic fever with renal syndrome (HFRS), 587
Haemorrhagic septicaemia, 81
Hantaan virus infection, 590
Hantaviruses, 587
diagnosis of infection, 149, 593
epidemiology, transmission and clinical features, 590
infection in rodents, 589
pathogenesis, 591
physical and chemical properties, 588
taxonomy and genetic organisation, 587
treatment and prevention, 593
vaccines, 594
Hantavirus pulmonary syndrome, 591
Helicobacter spp.
enterohepatic, cytolethal distending toxin activity, 525
H. heilmannii, gastric emptying and, 627
H. pylori, culture from gastric juice, 343
H. pylori, in dental plaque, 349
H. pylori, in gastric biopsies, 817
H. pylori, heparan sulphate-binding proteins, 535
H. pylori, immunogenicity of 18-kDa protein, 643
H. pylori-induced neutrophil oxidative burst, 521
H. pylori interaction with *C. butyricum*, 635
H. pylori, primary and combined resistance in, 415
H. pylori, protein components of vaccine, 535
H. pylori, ultrastructure of coccoid form, 513
Heparan sulphate-binding proteins
of *H. pylori*, 535
Hepatitis C virus
genotyping, 89
neu-oncoprotein overexpression, 89
Hepatocellular carcinoma, 89
Hepatocyte growth factor (HGF)
induction by *P. gingivalis* fimbriae, 319
HIV infection
M. leprae and, 301
oral *C. albicans* in, 985
see also AIDS patients
HLA antigens
autoimmunity and, 305
Hyaluronidase activity
S. pneumoniae, 1060
Hybridisation
in-situ, for detection of *A. fumigatus*, 285

Ibuprofen
activity against *Candida* spp., 831
Ileal explants
adhesion of *S. enterica* serotype Enteritidis, 691
invasiveness of salmonellae, 1011
Immune response
borreliacidal, 917
in Lyme disease, 917
mice to *K. pneumoniae*, 1003
to *B. burgdorferi*, 911

to nasal pertussis vaccine, 157
to *P. falciparum*, 1053
to *S. pneumoniae*, 1063
to *S. pyogenes*, 849
Immunisation
against *B. anthracis*, 1129
against *V. cholerae*, 14
against *Y. pestis*, 9
mice against *H. pylori*, 535
Immunoassay
PCR-immunoassay for *N. meningitidis*, 451
see also ELISA
Immuno-electron microscopy
borreliacidal activity of Lyme disease sera, 917
Immunoglobulins
ELISA for Andes hantavirus, 149
vaccines against *S. pneumoniae*, 954
Immunomagnetic separation
in detection of *Cryptosporidium* spp., 779
Immunotherapy
against *C. parvum*, 207
Indinavir
drug interactions, 961
Influenza viruses
type A, *C. pneumoniae* infection during epidemic, 391
type A efficacy of vaccine, 553
types A and B, detection by ELISA and RT-PCR, 1037
α-Interferon
hantaviruses and, 594
Interferon-γ (IFN-γ)
in *C. piliforme* infection, 557
modulation by rIL-12, 701
in seminal plasma, 697
Interleukins
IL-1, effects of interaction of verotoxin and LPS, 905
IL-6, effects of interaction of verotoxin and LPS, 905
IL-6, in murine Tyzzer's disease, 171
IL-6, in seminal plasma, 697
IL-6 in inflammatory response to *K. pneumoniae*, 1003
IL-8, in seminal plasma, 697
IL-8 in Japanese encephalitis virus infection, 607
IL-10, modulation by rIL-12, 701
rIL-12, therapeutic activity in sepsis, 701
Intimin
antibody response to, 97
Iron
modulation of *actA* gene in *L. monocytogenes*, 681

Japanese encephalitis virus
interleukin-8 secretion and, 607

Klebsiella spp.
K. planticola, virulence factors, 115
K. pneumoniae, and autoimmunity, 305
K. pneumoniae, capsule, 1003
K. pneumoniae, inflammatory response and, 1003
K. rhinoscleromatis infection, 395
Korean haemorrhagic fever (KHF), 587
β-Lactamases
antibiotic resistance in tropical areas, 18
in *E. coli*, 18
in Enterobacteriaceae, 20
in *H. influenzae*, 19
in *N. meningitidis*, 19
in *S. pneumoniae*, 19
Y. enterocolitica, 403

Lactobacilli
effects on yeasts in biofilms, 713
as probiotics for vaginal re-colonisation, 543
Lamivudine
drug interactions, 958
Latex agglutination
monoclonal antibody-based, 1075
Leprosy, 301
Lipopolysaccharide (LPS)
E. coli, interaction with verotoxin, 905
in invasiveness of salmonellae, 1011
of oral bacteria, influence on epithelial cells, 245
in porcine respiratory coronavirus infection, 613
Proteus spp., biological activities, 127
Lipoteichoic acids
influence on epithelial cells, 245
Listeria monocytogenes
gene encoding fibronectin-binding protein, 887
iron modulation of *actA* gene, 681
molecular grouping, 73
Liverpool School of Tropical Medicine, 5
Lyme disease, 47, 917

Macrophages
phagocytosis of *M. leprae*, 339
Malaria
immunity, public health and control, 1053
Malassezia spp.
identification and typing, 29
Mass spectrometry
intact cell, for MSSA and MRSA, 295
Mayaro virus
effect of weak bases on replication cycle, 313
Media *see* Culture media
Melioidosis, 9
Meningitis
H. influenzae type b, 845
in HIV infection, 952
N. meningitidis, 451, 1079
S. pneumoniae, 952, 1060, 1064
Y. pestis, 8
Meningococci *see Neisseria meningitidis*
Methicillin
discrimination between MSSA and MRSA, 295
resistant *S. aureus* (MRSA), 187, 295, 419, 1103, 1109
Metronidazole
resistance of *H. pylori*, 415
Microsporidiosis
AIDS patients and, 948
diagnosis, 951
Microsporum spp.
identification by PCR, 493
Mikulicz cells, 395
Milk factors
antiviral activity, 719
Monoclonal antibodies
against *B. pseudomallei*, 1075
against *C. parvum*, 207
against *E. coli*, 253
against *Y. pestis*, 261
Monocytic ehrlichioses, 15
Mouse model
axenic *S. strongyloides* infection, 387
C. butyricum interaction with *H. pylori*, 635
cytokine response in Tyzzer's disease, 171, 557
disseminated aspergillosis, 601
immunisation against *H. pylori*, 535
inflammatory response to *K. pneumoniae*, 1003
influence of intestinal bacteria on giardiasis, 209
interaction of verotoxin and LPS, 905
monoclonal antibodies and *E. coli* infection, 253
sepsis, and therapeutic rIL-12, 701
Multilocus enzyme electrophoresis (MLEE)
analysis of *A. fumigatus*, 375
Multiple sclerosis, 1
Mupirocin
resistance of MRSA, 1105
Mycobacteria
M. avium-intracellulare complex, plasmids, 392
M. avium, molecular typing, 1091
M. avium, ultrastructural study of infection, 139
M. leprae, diagnosis of infection, 301
M. leprae, protein kinase and phagocytosis, 339
M. leprae, transmission, 301
M. leprae, treatment of infection, 301
M. shimoidei, characterisation, 937
M. tuberculosis, antibiotic resistance in tropics, 19
M. tuberculosis, molecular diagnosis of rifampicin resistance, 271
M. tuberculosis, multiresistant, genotyping, 651

Mycoplasma hominis
seminal cytokines and, 697

Neisseria spp.
N. gonorrhoeae, antibiotic resistance in tropics, 19
N. meningitidis, antibiotic resistance in tropics, 19
N. meningitidis, epidemic strains, 1079
N. meningitidis, genes encoding glyoxalases, 669
N. meningitidis, molecular epidemiology, 1079
N. meningitidis, PCR-immunoassay for, 451
N. meningitidis, and ultrasound immuno-agglutination, 853
Nelfinavir
drug interactions, 961
Neuraminidase activity
S. pneumoniae, 1060
Neuroborreliosis, 911
Neutrophils
H. pylori-induced oxidative burst, 521
Nevirapine
drug interactions, 961
Nicotine
antimicrobial activity, 675
Nitazoxanide
in *C. parvum* infection, 207
Nucleoside reverse transcriptase inhibitors
drug interactions, 958

Oligopeptide-binding proteins (OppA)
in *E. coli*, 409
Opacity variants
of *S. pneumoniae*, 1057
Opsonophagocytosis
S. pneumoniae and, 1061
Oral bacteria
competition for glucose, and *C. albicans*, 969
detection and identification of *S. sobrinus*, 1069
enumeration of periodontopathogens in plaque, 861
H. pylori in dental plaque, 349
influence of surface antigens on epithelial cells, 245
RAPD identification of streptococci, 63
trypsin-like activity in canine periodontitis, 621
Organic acids
inhibition of chemotaxis, 1023

Paracoccidioides brasiliensis
evaluation of antibody response, 37
Paracoccidiomycosis, 37
Parasites
as indicators of human biology and evolution, 771
phylogeny, 771
Paromomycin
in *C. parvum* infection, 207
Pasteurella multocida
discrimination of group B isolates, 81
haemorrhagic septicaemia, 81
Pathogenicity islands
S. enterica, 956
PCR
analysis of multiresistant *S.* Typhimurium, 103
arbitrarily primed, 493, 575
in detection of *Cryptosporidium* spp., 779
detection of *H. pylori* in dental plaque and saliva, 349
detection and identification of *S. sobrinus*, 1069
detection of influenza A and B, 1037
diagnosis of rifampicin resistance in tuberculosis, 271
enumeration of periodontopathogens in plaque, 861
fibronectin-binding protein gene of *L. monocytogenes*, 887
identification of dermatophyte fungi, 493
molecular genotyping of *Candida* spp., 575
multiplex, 103
PCR-immunoassay, detection of *N. meningitidis*, 451
PCR-SSCP, typing of *P. carinii* f. sp. *hominis*, 753
profiling of bacterial flora in gastric biopsies, 817
quantitative-competitive, 861
rep-PCR, genetic relatedness in *B. fragilis* strains, 279
reverse transcriptase (RT-PCR), 1037
tetracycline resistance of *Acinetobacter* spp., 929
typing of *Malassezia* spp., 29
Penicillin
prophylactic, 954
resistance of MRSA, 1103
S. pneumoniae and HIV infection, 954, 955
Peptostreptococcus spp.
in abdominal infections, 827
identification of, 747
Periodontitis
canine, trypsin-like activity in, 621
enumeration of periodontopathogens in plaque, 861
Pertussis, 157
Phages
genotyping, of enterohaemorrhagic *E. coli*, 565
Phagocytosis
M. leprae by macrophages, 339
Pharmacokinetic/pharmacodynamic considerations, 943
Pharyngitis, 811
Phylogeny, parasites in, 771
Pili
cable, of *B. cepacia*, 875
Plague, 6
Plasmids
enteropathogenic *E. coli*, 823
in invasiveness of salmonellae, 1011
M. avium-intracellulare complex, 392
multiresistant *S. dysenteriae*, 19
multiresistant *S. typhi*, 20
profiles of *B. burgdorferi*, 47
profiles of *S. sonnei*, 355
resistance of *S. aureus*, 1103
Plasmodium spp.
in human phylogeny, 771
P. falciparum, immunity, public health and control, 1053
Pneumococcal surface proteins, 1059, 1060
Pneumocystis carinii
pneumonia, marker of disease, 393
typing of *P.c. hominis* by PCR-SSCP, 753
Pneumolysin, 1061
Pneumonia, 391
B. pseudomallei infection, 9
in HIV infection, 952
K. pneumoniae, 1003
P. carinii, 393
S. pneumoniae, 952, 1063
Pneumonic plague, 7
PNPG (*p*-nitrophenylglycerol)
inhibition of virulence factor expression by *P. mirabilis*, 725
Polymyxin B
interactions with LPS of *Proteus* spp., 127
Polyphosphate granules
of *H. pylori*, 513
C-Polysaccharide, of *S. pneumoniae*, 1062
Porcine respiratory coronavirus
lipopolysaccharides and TNF-α, 613
Porphyromonas gingivalis
enumeration in subgingival plaque, 861
induction of HGF by fimbriae, 319
Prevotella intermedia
enumeration in subgingival plaque, 861
Probiotics
C. butyricum interaction with *H. pylori*, 635
effect on yeast in biofilms, 713
lactobacilli in bacterial vaginosis, 543
Protease inhibitors
drug interactions, 958
Protein
c alpha, of *S. agalactiae*, 193
CAP18-derived peptide, 127
choline-binding, of *S. pneumoniae*, 1059
components of *H. pylori* vaccine, 535
expression by *B. burgdorferi*, 47
fibronectin-binding, of *L. monocytogenes*, 887
heparan sulphate-binding, 535
immunogenic, of *H. pylori*, 643
LEE-encoded antigens, 97
major outer-membrane polyantigens of *C. trachomatis*, 457
M protein of *S. pyogenes*, 849
neu-oncoprotein overexpression, 89
oligopeptide-binding, in *E. coli*, 409

pneumococcal surface, 1059, 1060
protective antigens of *B. abortus*, 165
Proteinase activity
of *C. neoformans*, 733
Protein kinase
in phagocytosis of *M. leprae*, 339
Proteus spp.
biological activities of LPS, 127
P. mirabilis and autoimmunity, 305
P. mirabilis, inhibition of swarming differentiation, 725
P. mirabilis, inhibition of virulence factor expression, 725
Pseudomonas spp.
P. aeruginosa-induced sepsis, and rIL-12, 701
Public health
control of malaria and, 1053
Pulsed-field gel electrophoresis (PFGE)
characterisation of *B. burgdorferi*, 47
characterisation of *E. faecium*, 793
characterisation of group A streptococci, 467
clonal spread of *H. influenzae* type b, 845
epidemiology of *S. pneumoniae* bacteraemia, 361
molecular analysis of *S. sonnei*, 355
phage genotyping of enterohaemorrhagic *E. coli*, 565
Puumula virus infection, 590

Rabbit ileal loop
enterotoxicity of *A. media*, 685
Rabies virus
reactivation of apoptotic gene (Nedd-2), 1043
Rat model
gastric emptying in *H. heilmannii* infection, 627
Reactive arthritis, 305
Respiratory scleroma, 395
Respiratory syncytial virus
effect on bactericidal activity of THP-1 cells, 227
Restriction endonuclease analysis
fibronectin-binding protein gene of *L. monocytogenes*, 887
group B *P. multocida*, 81
in identification of *Cryptosporidium* spp., 779
Restriction fragment length polymorphisms
molecular typing of *M. avium*, 1091
phage genotyping of enterohaemorrhagic *E. coli*, 565
Reverse transcriptase inhibitors
drug interactions, 958, 961
Rheumatic fever, 305
Rheumatoid arthritis, 305
Rhinoscleroma, 395
Rhinoviruses
antiviral activity of human milk factors, 719
Ribavirin
hantaviruses and, 593
Ribotyping
characterisation of *C. urealyticum*, 759
V. cholerae, 1085
Rifampicin
M. leprae infection and, 301
resistance, diagnosis in tuberculosis, 271
Rifampin
impregnation of shunt catheters, 441
Ritonavir
drug interactions, 960
Rotavirus
co-infection with *Y. enterocolitica* or *Y. pseudotuberculosis*, 897
Russell bodies, 395

Saliva
H. pylori in, 349
Salmonellae
enteric fever in tropical areas, 20
fimbriae and flagella in adhesion, 691
food poisoning and, 677
invasiveness of, 503, 1011
phenicol resistance, 103
plasmids, 1011
S. enterica, in AIDS, 955
S. enterica, antimicrobial susceptibility, 956
S. enterica, pathogenicity islands, 956
S. enterica, role of fimbriae in adherence, 481
S. enterica, transmission, colonisation and invasion, 957
serotype Choleraesuis, 503
serotype Dublin, 503
serotype Enteritidis, 481, 691, 1011
serotype Typhimurium, 103, 503, 677, 1011
S. paratyphi, multiresistant, 21
S. typhi, multiresistant, 20
Saquinavir
drug interactions, 960
Scatter factor
induction by *P. gingivalis* fimbriae, 319
SDS-PAGE
characterisation of *B. burgdorferi*, 47
sialidase from *S. oralis*, 235
Semen
cytokine expression in, 697
Sennetsu fever, 15
Seoul virus infection, 591
Sepsis
mouse model, and therapeutic rIL-12, 701
skin, *S. pyogenes*, 371
translocation in, 431
Septicaemia
B. pseudomallei, 1075
haemorrhagic, 81
P. multocida, 81
Y. pestis, 8
Serology
antibody response in paracoccidioidomycosis, 37
diagnosis of *M. leprae* infection, 301
enteropathogenic *E. coli*, 823
false-negative, in neuroborreliosis, 911
hantaviruses, 588
ultrasound-enhanced antigen agglutination, 853
Serotyping
S. pneumoniae bacteraemia, 361
Serum
borreliacidal antibodies in early Lyme disease, 917
resistance of *A. baumannii*, 1047
resistance of *K. planticola*, 115
Shiga toxin, 383, 565, 583, 765
Shigellae
relationships with *E. coli*, 583
S. dysenteriae, antibiotic resistance in tropics, 19
S. sonnei, molecular analysis, 355
Shigellosis, 583
Shock waves
bactericidal effects, 709
Sialidase
from *S. oralis*, 235
Siderophore production
K. planticola, 115
Skin disorders
characterisation of *B. burgdorferi*, 47
identification and typing of *Malassezia* spp., 29
Skin sepsis
S. pyogenes, 371
Slime production
S. saprophyticus, 1051
Sodium acetate
utilisation by *Y. enterocolitica*, 674
Species, concept of, 397
Staphylococci
binding of von Willebrand factor, 217
coagulase-negative, 217, 1051
methicillin-resistant *S. aureus* (MRSA), 187, 295, 419, 1103, 1109
S. aureus, adhesion to catheters, 441
S. aureus, bactericidal activity of gemifloxacin, 841
S. aureus, bactericidal effects of shock waves, 709
S. aureus, co-transfer of resistance plasmids, 1103
S. aureus, epidemic multiresistant MRSA clone, 187
S. aureus, fusidic acid resistance, 419
S. aureus, multiresistant, in breast milk, 1109
S. aureus, rapid discrimination between MSSA and MRSA, 295
S. epidermidis, bacteraemia, 367
S. saprophyticus, slime production, 1051
Stavudine
drug interactions, 958
Strain, concept of, 397

Streptococci
in abdominal infections, 827
β-haemolytic, 941
group A, 467, 499, 811, 849
media for isolation from throat swabs, 941
molecular characterisation, 467
mutans, RAPD identification, 63
oral, RAPD identification, 63
S. agalactiae, c alpha protein and gene, 193
S. dysgalactiae subsp. *equisimilis*, haemolysin-deficient variants, 811
S. epidermidis, adhesion to catheters, 441
S. intermedius, haemolytic activity, 55
'*S. milleri* group', haemolytic activity, 55
S. oralis, bacteraemia, 367
S. oralis sialidase, 235
S. pneumoniae, adhesion, 1057
S. pneumoniae, antibiotic resistance in tropics, 19
S. pneumoniae, bacteraemia, 361, 952, 1060
S. pneumoniae, bactericidal activity of gemifloxacin, 841
S. pneumoniae, epidemiology, 361, 952
S. pneumoniae, in HIV infection, 952
S. pneumoniae, invasion, 1059
S. pneumoniae, pathogenesis of infection, 1057
S. pneumoniae, vaccines, 954
S. pyogenes, haemolysin-deficient variants, 811
S. pyogenes, host–microbe interactions in pathogenicity, 849
S. pyogenes, internalisation of, 499
S. pyogenes, skin sepsis, 371
S. sobrinus, detection and identification, 1069
Strongyloides venezuelensis
axenic, in mouse model, 387

Taxonomy
concepts of strain, clone and species, 397
hantaviruses, 587
relationships of shigellae and *E. coli*, 583
Temperature gradient gel electrophoresis
profiling bacterial flora in gastric biopsies, 817
Tetracycline
resistance in *Acinetobacter* spp., 929
Ticks
transmission of human ehrlichioses, 15
Toxins
cytolethal distending, of *C. jejuni*, 473
cytolethal distending, of *Helicobacter* spp., 525
streptococcal pyrogenic exotoxin B, 849
see also Endotoxins, Enterotoxins, Shiga toxins
Tracheal explants
adherence of *E. coli*, 327
Translocation
in sepsis, 431
Transmission
hantaviruses, 588
H. pylori, 343
M. leprae, 301
P. falciparum, 1053
S. enterica, in AIDS patients, 956
Treponema pallidum
DNA polymerase I, 657
Trichophyton spp.
identification by PCR, 493
Tropical infections
antibiotic resistance and, 18
review, 5
see also specific infections
Trypanosoma cruzi
cryptic genetic variation, 489
Trypsin-like activity
in canine periodontitis, 621
Tuberculosis, 271
Tumour necrosis factor-α (TNF-α)
in *C. piliforme* infection, 557
effects of interaction of verotoxin and LPS, 905
inflammatory response to *K. pneumoniae*, 1003
murine MAbs and *E. coli* infection, 253
in porcine respiratory coronavirus infection, 613
in seminal plasma, 697
Tyzzer's disease, 171, 557

Ultrasound-enhanced antigen agglutination, 853
Ureaplasma urealyticum
seminal cytokines and, 697

Vaccines
against *B. anthracis*, 1129
against *B. pertussis*, 157
against hantaviruses, 594
against *H. pylori*, 535
against influenza A virus, 553
against *S. pneumoniae*, 954
against *V. cholerae*, 14
against *Y. pestis*, 9
Vaginosis, bacterial, 543, 1023
Vancomycin
resistance of *E. faecium*, 793
Verocytotoxic *E. coli*, 97, 905
Vibrio spp.
V. cholerae, cholera epidemics/pandemics, 12
V. cholerae, epidemiology and ecology, 13
V. cholerae, molecular epidemiology, 1085
